

I am writing to say that the FCC should not deregulate media.
As a citizen of the San Francisco Bay area I feel that there are
already too few major media voices in my community. The
internet and non-network news channels do not offer a viable alternative to a
diverse offering of mainstream newspaper,
radio and network television. The majority of the population use these media for
news. Both Democrats and Republicans agree that it is not within the public
interest to allow a few corporations to dominate our public airwaves.

Thank you for your attention to this matter.
